Governor's Message

You can feel the fall brisk air and see the changes in the leaves. Changes in your meetings are a good thing! At your next meeting, change your seat so you can meet a new or even an older member of your club. Exchanging new ideas and projects might be a great way of getting others involved. Please invite your Human Services person from your city or town to visit. They can give you the needs assessment for your community.

I personally have been visiting your clubs to discuss district projects and hopes for each individual club. Please invite a person to a Lions dinner or to a project. This is part of our **ASK ONE**.

Our GMT and GLT have been working with clubs to help grow their membership and growth also the guiding lions are ready to help at all times. Please invite them to speak at your club.

Thank you to all the Lions who donated their time for the Veterans Stand-down on September 12, 2014. It was well attended and thank you to Lion George Finlayson and all that were involved to make this a success.

We should all be focused on growth and projects at this time. Growth means more Lions involved which equals helping more people in our own community. It is an amazing feeling to help others for this; I applaud every one of you for your time and passion to help.

Together we will be **"STRENGTHEN THE PRIDE"**.

Please remember to reset your clocks this month. We have an extra hour to reflect on our goals and club successes.

For those clubs I have visited thank you for your hospitality and keep up the great work that your club is doing for your community.

Yours in Lionism,
DG KathyLynn Patterson
