

Lions Diabetes Awareness News

Connecticut Lions District 23A

September, 2010

Let's Get the Ball Rolling!

Lions are off to a fast start with fund-raising walks in early September and October, plus tours of prominent diabetes research scientists who are fighting for the cure right here in Connecticut.

Our goal this year is to get diabetes awareness literature to every Lions club in our district, and for these clubs to distribute that literature at every possible Lions event.

To get ball rolling, I am inviting your club to designate a diabetes awareness contact who can coordinate the club's activities and help generate ideas for Lions Diabetes Awareness across the district. We will invite your diabetes awareness contact to quarterly diabetes awareness meetings where the latest research will be presented and ideas discussed.

To register your club's Diabetes Awareness Contact, please complete the following information and send it to me at the address below:
